

Adopt a Grapevine Program

Do you enjoy the vineyard experience but don't want to take the time or have the expense of owning your own vineyard? Well now you can adopt your own grapevine for 1 year, 3 years or even a lifetime.

How does it work?

First you walk through the vineyard to find the vine looking for a parent. Once you find the perfect vine write down the Vine type, the row number it is located on and the vine number within that row. Each row is marked at the beginning and end of the row with the vine type and row number. Count down from the start of the row to get your vine number.

Next take the location of your vine into the tasting room and we will record you as a new adoptive parent of a Shadow Springs vine.

What you will receive:

Each parent will receive an adoption certificate in the mail showing you as the parent, the date of adoption, length of adoption, the type of vine and the location of that vine. You will also receive a photo of your vine via email close to harvest. For each year you are the parent you will receive 2 bottles of wine from the vintage of your vine. You can choose for any wine your vine variety is a part of. Lifetime adoptions do not qualify for wine.

Cost:

1 year adoption = \$ 45.00

3 year adoption = \$125.00

Lifetime = Wedding, Wedding reception or party held at Shadow Springs Vineyard

The wine of your vine can be picked up at the tasting room or can be shipped to you for a shipping and handling fee. White wine usually takes around 8 months from harvest to be bottled and Red wine usually takes 18 months from harvest to be bottled. We will send an email when we are harvesting your vine (you can help if you want to) we will also send you an email when your wine is ready to pick up.

This also makes a great gift.

Your vine is calling!!!
